

THE FUTURE MOVES ON NERAK

Continuous Vertical Conveyors (CVC)

- Continuous high-speed, high-capacity operation
- Low maintenance
- **Small footprint**
- **Energy efficient** (25-30% less energy required than spiral conveying)
- Loads up to 5,000 pounds
- Full range of industry proven solutions
- **Greater lifetime ROI than competing options**

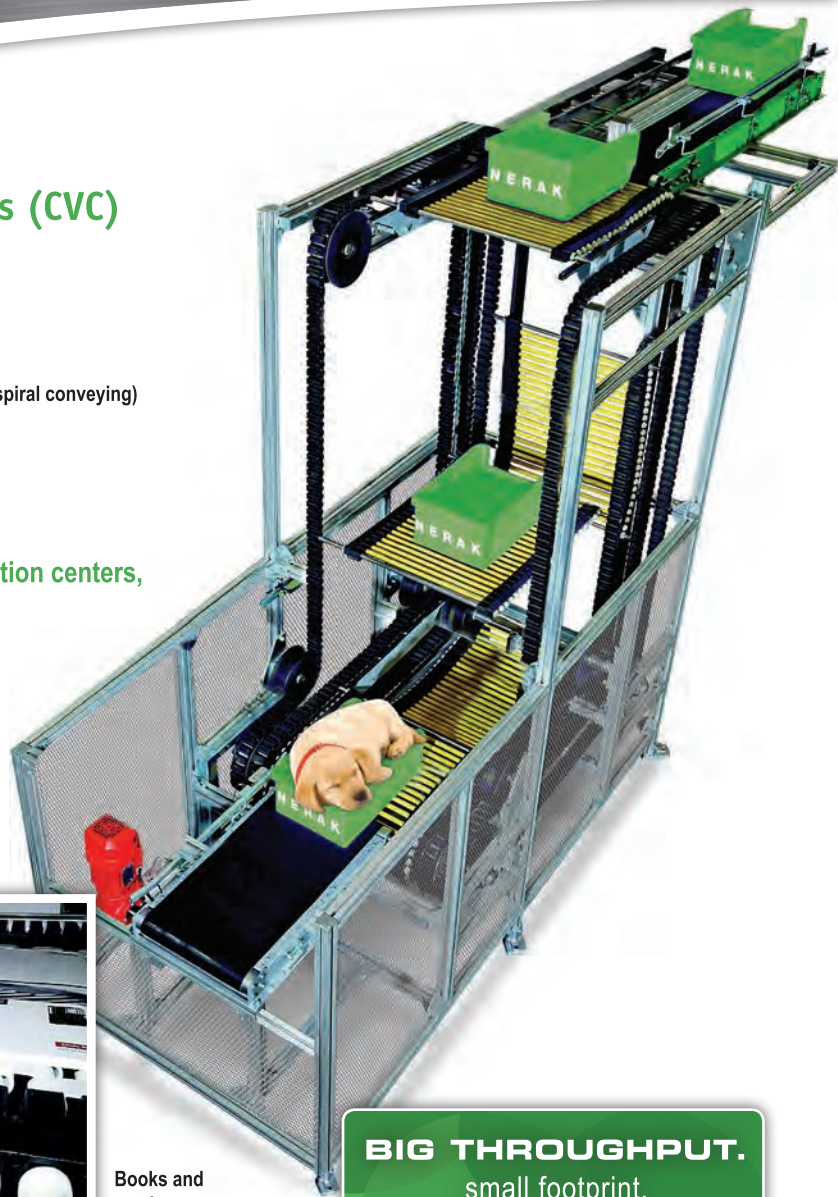

Ideal for sorting facilities, airports, distribution centers, warehouses and production facilities.

Shrink-wrapped packages

Books and catalogues

BIG THROUGHPUT.
small footprint.

Occupying approximately 25% of the space requirements of a spiral, and less than 10% of the space requirements of an inclining straight conveyor system, NERAK CVCs save valuable space.
